

The World's Most Portable
Full-Function Dual-Channel
Vascular Diagnostic System

MULTILAB[®] SERIES 2-CP-R

Full-Function, Fully Portable

The MultiLab 2-CP-R combines capability with portability, offering the same technology as the acclaimed MultiLab LHS in an easy-to-carry unit. The 2-CP-R features TruDop® Doppler probes, calibrated PVR, dual-channel PPG probes with clips, and programmable software. You can generate a full array of lower and upper arterial studies, including ankle brachial index, toe brachial index, full segmental exams, post-exercise exams, full waveforms including Doppler, PVR and PPG, and venous reflux dual-channel exam.
